EVER HAD A TOXIC JOB OR INTERNSHIP?

You're not alone.

Workplace abuse can include:
- Public humiliation
- Intimidation by supervisors
- Retaliation for speaking up
- Gaslighting
- Being pushed out of a job

Most workers have no legal protection unless the abuse is tied to discrimination.

We're building a Student Network to change that.

Join us to:
- Host campus discussions
- Raise awareness about toxic workplaces
- Advocate for worker protections
- Support people who experience workplace abuse

Scan the QR code to join the End Workplace Abuse Student Network.

Together, we can create workplaces where people thrive — not environments where abuse is tolerated.
